

## POPULATION AND QUANTITATIVE HEALTH SCIENCES

# BRIDGE TO SUCCESS

**Tuesday, March 26, 2019**

**12:00-1:00 pm**

**Albert Sherman Center**

**AS9-2072 Conference Room**

The BRIDGE Research in Progress workgroup provides an informal setting for new and experienced researchers to share nascent ideas or research-in-progress and to receive just-in-time feedback. Do you have an emerging idea for a grant or manuscript? Come share your research ideas and let us help you!

MARCH PRESENTER:

**William Jesdale, PhD**  
**Assistant Professor**  
**Division of Epidemiology**  
**Department of Population and Quantitative Health Sciences**

**“Missing Sexual Orientation and Gender Identity Data in the Behavioral Risk Factor Surveillance System: Sources, Magnitude, Correlates, and Implications”**

Population and Quantitative Health Sciences faculty will participate in all sessions. This working group is available to students, residents, fellows, and junior and senior faculty throughout UMMS. All investigators interested in discussing current and emerging research ideas are welcome.

Email [BRIDGE@umassmed.edu](mailto:BRIDGE@umassmed.edu) to sign up for a presentation slot. If you are working on a deadline, let us know so we can adjust the schedule to accommodate more urgent needs!

**Lunch will be provided**
