

# **EPiSERVER Content Management System**

# Hero Slider Container Block

A Hero Slider Container is created and housed in the Assets Pane. This Hero Slider type is used to show one image at a time and scroll through the other images in the interval assigned or when manually clicking through the image series.

Note: You have just created the **Container Block** that will hold your image blocks.

# **Creating Hero Slider Image Block**

Now you will create the **Image Blocks** that will be included within the Hero Slider Container. Each block will contain one image.

1. **Open** the Asset Pane, **Select** the Blocks tab and scroll to your department's Global Library where you created the Hero Slider Container Block.

4.

2. Click the + button to add another block. = + = ucy Test New Block =

3. Name your block and scroll down the page until you see the Hero Slider options and select Hero Slider IMAGE option.

- 4. The following page will appear.
  - a) Add the Slide Image by **selecting** the ... button. **Scroll** through your global files and select the first image you would like to add to the Hero Slider Container.
  - b) Enter the Image Alt Description. (This should be a description of the individual picture.)

c)	<b>Click</b> the Done button.	Create a Block from Hero Slider IMAGE Lucy Test Image Block 2
		Enter the required information below
		Content
		Slide Image
		Image Alt Description
		Done

- 5. **Publish** the Image block. You will now see your Image block located with your other blocks in the asset pane.
- 6. Repeat steps 1-5 to add multiple image blocks.

# Adding Hero Slider Image Block to the Hero slider Container

Now we will add the Image blocks to the Hero Slider Container we added above.

1. Return back to the **Assets pane** and **select** the original Hero Slider Container you first added.

	Options V	ii 📑
Global Library > Training > Lucy Test new Block	options	i
← <u>Back</u> This is a block.		×
This preview shows the block 'Lucy Test new Block' when rendered in full width		4

2. Select the **ise** button to open the Forms Editing Pane. The following page will appear:

Global Library > Training Lucy Test new Block	>		Options 🗸
← <u>Back</u> This is a block	а.		>
Name	Lucy Test new Block	Visible to Languages	Restricted <sub>Manage</sub> en
		ID, Type	53295, Hero Slider Container
			Tools 🗸
Content Setting	js		
Category	Add one or more categories	+	
Clickable Hero Slider ContentArea	You can drop <u>pa</u>	ages and <u>blocks</u> here	

## Academic Computing Services

3. Expand the Assets Pane and pin it so it will remain part of the screen.

- 4. Scroll to the Image Blocks you previously created.
- 5. Drag your Image Blocks into the Clickable Hero Slider Content Area.
